

Hadley Wood Neighbourhood Planning Forum

'supporting sustainable development, preserving our local character'

Potential Community Infrastructure Levy (CIL) investments

Draft 2 - Revised following the Forum meeting on 25 October 2017

Crescent shopping parade 'public realm' improvements

Specify a design for seating, gardens/flower beds.

Hadley Wood Association building refurbishment/rebuild

Are there any refurbishment projects, pending the evaluation of a major reconstruction?

Improved local signs

Do visitors passing through Hadley Wood (on the Cockfosters Road or Camlet Way) know we have a station, shopping parade, golf club, HWA centre, tennis club, etc.

New footpaths and cycle paths.

Not repairs, but new routes. Several options have been presented at earlier meetings, such as a cycle path along Waggon Road, a footpath along Monken Mead to the A1000, and a footpath from Camlet Way to the station.

Other street furniture

Do we have any specific proposals?

Outside gym

A fitness trail around our open space (either Bartrams Lane or by the HWA Centre)

Other investment opportunities

(Should these be funded by CIL, or out of core funding?)

Flood relief schemes

Street tree replanting

Grass verge improvements/repairs

Hadley Wood Primary School
